## Farwell Party Held For Harris Walker

Elder Harris Walker, who has been called on a mission to the Canadian Mission and who will commence his labors in Eastern Canada was guest of honor at a farewell party and social in the Raymond Second Ward Hall Tuesday evening, when the people of both Raymond wards gathered to show their respect and appreciation for him.

Louis R. King had charge of the program which was given after mutual and was as follows: Brief Remarks; Pres. H. S. Allen, Bishop J. H. Walker and wife and the guest of honor, Harris Walker.

Vocal Trio—The King Sisters and Sybil Bacon. Male Quartet—Bishop and Harris Walker, Azel Stevenson and Oliver McLean.

Vocal Solo—Frank Weaver. The floor was then cleared and an hour's dancing enjoyed by the crowd. During the evening a silver collection was taken up, and a nice sum realized to help the departing missionary on his journey.

Harris will have the good wishes of his many friends in his journeys and labors in the mission field. He has been an ambitious and exemplary young man at home, and has distinguished himself in athletics both in Alberta, Manitoba and other provinces in Canada and also in the intercontinental States while at the R.Y.U. where he obtained his preliminary studies in medicine.

For December, the weather or the week-end could hardly be improved upon.

The Great-West Distributors, Ltd., have added another pump to the service at the Farmco Service Co. plant.

The array of Table and Floor Lamps in the Canadian Utilities store is the centre of a great deal of attraction. Housewives are wishing almost as hard for one of those lamps as the kiddies are wishing for trains, dolls and so on and so on.

### "SPEAKS WELL OF PRINTER"

The following from the Canton, Missouri Record is worthy of note.

"Hushel Pearson, who for six months has been linotype operator in the Star office, has gone to Canton to again take up work in the Record office. Mr. Pearson is a very competent workman and a pleasing fellow to have in an office and we regret very much to lose his services. During his half year in LaBelle he and Mrs. Pearson have made friends who had hoped they would be a fixture in our city. Frank J. Dunn, of Nebraska, is now operating our linotype and assisting in the other mechanical work and he is making a very favorable impression."—LaBelle Star.

The item is interesting because Mr. Pearson's former employer printed it and especially so since his new employer reprinted it.

To every employee such an acknowledgment is a reward to read news like that.

To every employer such an item says, "So live that when your summons comes to leave your present employer you do not go with a good riddance to bad rubbish, but with your past employer's praises and well-wishes ringing in your ears."

Need as to say employers who pay fair wages and are generous in appreciation always can be their pick of the best workmen.

### POSTAL RATES FOR CHRISTMAS CARDS

If the envelope is sealed letter rate obtains. ONE CENT FOR TWO OUNCES TO EACH SEPARATE ADDRESS anywhere if sent unsealed or in open envelopes provided cards do not bear any postage.

Cards bearing writing, or type written, date and signature of sender, or seasonal expressions such as "Merry Xmas," "Happy New Year," or "Conquillants of the Season," etc., can be mailed in unsealed envelopes at LATE POSTAL RATE FOR EACH TWO OUNCES TO EACH SEPARATE ADDRESS.

Information re postage rates may be obtained at the post office where rates are posted. It is hoped this information will assist those with Xmas Cards to mail.

### NEWS NOTES

Geo. W. Green of Lethbridge was a local visitor Thursday.

If you ought to have it, then it is within your reach. Of course you may have to stretch.

The Canadian Utilities men were putting in the lights on the outside of the Texaco Station on Monday of this week.

Pat Hamilton of the Imperial Motors, Ltd., Lethbridge, was a visitor in Raymond on Thursday.

We have quite a stock of plain and fancy Christmas Cards for that last minute card you didn't expect to send. Come in and see them.

By popular request "Naughty Marietta" will be shown again at the Capitol December 17th and 18th. Here is another opportunity for you to see this outstanding picture.

Very interesting Conjoint meetings were held in both Raymond wards Sunday evening under the direction of the Ward Mutuals. Miss Verna Nalder presented her School Chorus in one number each at the First Ward Meeting.

England and France are working untiringly in an endeavor to arrange terms of peace between Italy and Ethiopia. Duce seems determined to carry out his plans against the Ethiopians.

The British American Oil Co. Service truck was in town Monday, and the workmen were re-painting the gas pumps at the S. B. Card and Son Service Station, this firm having recently taken over the B.A. Agency for Raymond and district.

If you want people to spend their Christmas money at home, invite them to do so by advertising. You know you have the goods, but are you telling the world about it like the hen does. Advertising ALWAYS PAYS BIG.

The Capitol was jammed Thursday night for the showing of "Lest We Forget." It was a wonderful picture and while not pleasant in places, was still very true to the subject and appreciated by all. Everyone except the boys who have been "over there" left the Theatre with more horror and distaste of war than ever before, after seeing it stripped of all its glory, and its ghastliness revealed as it was.

## Second Ward Carnival Decided Success

The Annual Second Ward Carnival came to a close early Saturday morning of last week after two very successful evenings of fun and amusement for everyone who attended, and the question was not "Who is here?" but rather "Who is there that is not here?" Following the lead of future years, the hall was packed from 9 p.m. until 1:30 a.m. morning with a crowd of about 1,000 people, and who were standing freely to have it. The dance floor shooting gallery, bingo, wheels, dart throwing and all the other games enjoyed good patronage all evening, and when the time came for closing the stock of prizes that the committee had arranged for had been depleted, and a number of replacements had been procured to keep the games going.

A large number of beautiful quilts were disposed of and many of these went to lucky people who only spent 25 cents for one ticket. Other folks took chances on all the quilts and

went home with empty pockets and arms.

The drawing for the \$100 prize was the centre of interest at 1 a.m., and in this on the second night, Geo. Chew, Manager of the Club Cafe, Raymond, held the lucky number and walked home with the \$100, not until however he had donated \$10 of it to the Church, and spent considerably more on the various games in the house. This was also the case with the winner on the first night, Miss Lucille Pyne of Warner, who was there Friday night to collect her money and to spend a good part of it in enjoying the evening with the rest of the crowd.

All in all the Carnival was a great success socially and financially, and the Ward will have about \$1,000 to apply on their indebtedness as a result of this community endeavor put forth by the members of the Ward and many others who assisted in making the evening such a decided success.

## News Notes

School Fair prizes were awarded last week, and the kiddies have been busy this week collecting them.

Mr. R. J. Stringer of the Canadian Utilities office staff Calgary, was a Raymond visitor Saturday last.

Miss Martha Thomas of Cardston spent a few days last week with Miss Beth Harker in Raymond.

Together again, Jean Parker and Jimmy Dunn in "Have a Heart." Also Cu Crystal Nite at the Capitol, next Monday.

You still have time to get some of those lovely Personal Greeting Cards with FREE note paper and envelopes on orders of 18 or more. One in today.

Rulon Dahl and Melvin Kine were in Lethbridge Saturday on Carnival business, and while there attended the Lions Carnival for awhile.

LeMaun Burton of Cardston spent the week end in Raymond a guest of Billy McLeach. On Friday night he attended the Carnival.

Pres. and Mrs. O. H. Snow, Mr. and Mrs. J. J. Roberts were in Tyrell's Lake and the Courts branches on Sunday where they held Ward Conference and visited with the members. They report a very enjoyable day.

Mayor and Mr. Meeks, Mr. and Mrs. O. H. Snow, Mr. and Mrs. Philip Baker attended the Lions Carnival in Lethbridge Saturday evening last. The three gentlemen are all members of the Lethbridge Club.

Constable Alex Robertson of the Lethbridge City Police saved a robbery Tuesday night or Wednesday morning, when he frightened a burglar away from the premises of a Lethbridge Candy Kitchen. The haversack filled with tobacco, etc., was left behind. No arrests have been made as yet. An attempt was made the same night to break into MacDonald's Consolidated Warehouse, but after pulling two iron bars off the window the attempt was abandoned.

Leo King was in Lethbridge on Tuesday last.

Christmas is almost here. It seems almost uncanny how fast the months roll away.

J. M. Workman of Cardston was a Raymond visitor last Monday.

Ben Kenney's house was plastered this week. If the weather remains good it will likely be stuccoed right away.

Donation night, Saturday this week, \$20.00 Free. Feature picture "The Band Plays On," bargain prices 10 and 25c. See you at the Capitol.

Letters from Reed Kirkham in Chicago, state that he is getting along O.K. in his studies of dentistry and passed with good marks in his pre-medical examinations.

"The Broadway Gondolier" at the Capitol Tuesday next, starring Dick Powell, Joan Blondell and Frank McHugh is the musical hit of the year. See it by all means.

Owen Woodruff, 26, of Glenwood, was crushed to death Wednesday when he slipped and fell under the wheel of a wagon on which a house was being moved. He lived a few hours after the accident, but internal injuries were too severe for his body to withstand the shock.

Civic politics are boiling gaily in Lethbridge as the date for voting draws nearer. Clashes between Social Credit candidates and Civic Government nominees are common and the latter changes can hardly be called complimentary. Mayor Elton is a nominee for another term on the Council.

F. E. Rolfsen was guest of honor at a birthday party at the farm home Saturday evening last on his 63rd birthday, when about 15 of the older friends of the family sat down to a delicious turkey supper with all the trimmings, and then spent the remainder of the evening in games and conversation. A most delightful time was had by those present.

## Hungarian Society Building Social Hall

### "GRAIN FORUM" IS NEW FRIDAY RADIO FEATURE

GRAIN TRADE TO SPONSOR SHORT INFORMATIVE TALKS AND MUSIC

Friday, December 6th at 8 p.m. Central standard time and 8 p.m. Mountain standard time will mark the opening of a new all-Western program, known as "The Grain Forum" which will be broadcast over a network of Western stations every Friday at the same hour. It is sponsored jointly by the Winnipeg Grain Exchange and the North-West Grain Dealers Association and promises to contain several interesting features.

Tuneful music will be provided by a string orchestra, known as the "Cereal Strings" and, on occasions, by a specially selected group of male singers. Short, interesting addresses of not more than ten minutes duration will deal with various aspects of the production, distribution and marketing of grain.

An invitation will also be extended to all those interested in the growing of grain to submit questions on agricultural problems, all of which will be answered. The more important questions and answers will be published.

The first talk on December 13th will be introductory to the series and will contain some announcements of particular interest to the farming community.

On December 13th a special talk on the "World's Food and the Place Occupied by Wheat" will be given and December 20th will be devoted to special Christmas broadcasts featuring the orchestra and the male voice ensemble.

Other talks planned for early delivery are "Canada and the Competitor," "The Services the Country Elevator," "The Grain Exchange: what it does and what it does not do," "The factors that govern and influence the price of wheat."

Announcements will be made from time to time of other subjects to be discussed.

### PRICE OF AUTOS ERIPS MATERIALLY IN 10 YEARS

The average price paid for horsepower for automobiles in 1925 was \$31.50 today the average per "horse" is \$7.80, a decline of 75 per cent, according to the Automobile Manufacturers Association.

Unable to get an adequate measure of the amazing increase in value of the car buyers dollar through conventional treatment because of the striking changes in the vehicle of today as against that of a decade ago, the statisticians turned to horsepower, weight and size as basic factors for comparative purposes.

Calculating the price on the basis of weight, they found that the average price paid for cars sold by the pound would have been 41 cents per pound in 1925.

Today, the average price is 23 cents a pound, a decrease of 44 per cent, with many new features thrown in for good measure which were not available in 1925.

If inches of wheelbase is used as the standard, the figures show that where 10 years ago the average price of automobile transportation was \$9.60 an inch, today it is \$5.90, or a decrease of 39 per cent. —Christian Science Monitor

Rapid progress has been made on the Social Hall and Club Room being erected by the Hungarian society just east of the Telephone office. The cement foundation was put in last Friday, and this morning (Friday), the studding was all up and most of the sheeting on.

The building is 28x30 feet, and we understand will be stuccoed and finished in attractive trimmings. A small stage is being built in the north end of the hall, and it will be headquarters for the social activities of our Hungarian friends in Raymond.

### TURKEY ON THE TROT

When the turkey business was an infant industry, back in the earlier part of the seventeenth century, little attention was paid to the bird's design or equipment. The colonists looked not for streamlines, nor for refinements in the texture of the upholstery. They were satisfied if in the course of its structural unbuilding, the turkey developed the homely lines of a one-ton truck.

But now the cry is for smaller bodies and a greatly shortened wheelbase. These are the chief requirements. Little concern is given to such improvements as large, modern, streamlined, and a great help in the roasting pan before closing the oven door. The demand for a new model in turkeys has been so insistent that the Department of Agriculture is said to be working on a design to meet all the requirements of the comparatively small family of moderate means.

With the best engineers of the department employed on the project at the research farm in Maryland another year is likely to see a streamline model that will contain all the desirable elements of the old bird with many advances. These may include a center-control steering gear to enable even the most inexperienced carver to take an S curve without those disastrous skids that have added excitement to nearly every family table on one Xmas Day or another. —Christian Science Monitor

### SENTENCE STIMULANTS

Of course there are differences in personality and character just as one carpenter differs from another.

Poor Richard once said "Better slip with foot than tongue." As winter comes on some folks are wondering how that would be if the slip on the foot meant the break of the neck.

You are what you are and where you are today largely because of choices made in the yesterday. What and where you will be in the DISTANT tomorrow can be determined to a great extent by choices you make today and in the IMMEDIATE tomorrow.

You might be able to carry fifty pounds of sugar ten miles every Monday, Tuesday, Wednesday, Thursday and Friday. But if you tried to carry Friday, Thursday, Wednesday and Tuesday's load on Monday it might show up a weakness. The same is true of mental problems. Divide up your worries. You'll be agreeably surprised at the surplus strength you will appear to have.

### SHOULD WE PAY OUR TAXES?

We know that when we mention taxes, we will stir up the ire of many citizens of the town and district. At the same time, there are a few things in connection with this question of which we ought not to lose sight. Therefore, we ask this question "Should we pay our taxes?" And granted that we should, where in the category of bill paying should the item of taxes come?

During the past few years, in the town, when School taxes and Town taxes are considered, delinquent tax payers have piled up the humiliating total of \$98,004.40 at the end of 1931, and according to the Town Office these arrears have not been cut down any during 1932, but rather so far this year have been increased. We appreciate the fact that this is not a pleasant picture, but at times it requires a disagreeable statement of affairs to far people to a realization of their responsibilities.

Now consider this. Every year the taxpayers are after a reduction in Mill Rate. Judging from present conditions, had the tax roll been paid in full each year in the past, the addition of this extra 100,000 to the coffers the Town would have done 1 of two things: it would have enabled the citizens to receive much more in the way of public services from the town, or on the other hand meant a reduction in the mill rate for a year or two. At present the Mayor and Secretary are ineffectual with the problem of paying off the School teachers for December for December work before the Christmas holidays. Is it the

fault of the Town officials that this payment cannot be made, or is it the fault of every taxpayer who owes a single dollar in taxes? At the beginning of each year the budget is made up and the assessment made to cover this amount with the expectation that taxes WILL BE PAID. When, however, TAXES ARE NOT PAID, then the hands of Town officials are tied, and someone has to be disappointed in their expected returns.

After all, Mr. Taxpayer when you really analyse the question and are honest with yourself, is it a matter of money or a matter of mind that your taxes are in arrears so badly? We doubt if the tax roll were looked over that one would find the payments had been made by those best able to pay in the majority of cases, but rather those who had a high sense of their responsibility to their town, and had paid their taxes in preference to indulging in some expense to satisfy their individual desires. If we want a successful town we must be loyal enough to pay our taxes and next to food and clothing for our families, our taxes should be our first consideration.

### 1931 STATISTICS

Alberta with 7.91 per cent of the motor vehicles in the Dominion, accounted for 6.7 per cent of the total net gasoline consumption and provided 6.7 per cent of the total gasoline tax collected by nine provinces during 1931, according to tabulations from the Dominion Bureau of Statistics for 1931 just completed.

Ontario was the highest, with totals of 48 per cent of the motor vehicles, 49.9 per cent of the gasoline consumption and 47.5 per cent of the gas tax revenue.

Statistics of other provinces, in order, were: Quebec with 14.65 per cent of the motor vehicles, 18.4 per cent of the gasoline consumption and 17.6 per cent of the gas tax revenue.

British Columbia with 8.14 per cent of the total motor vehicles,

6.7 per cent of the gasoline consumption and 7.9 per cent of the gas tax revenue.

Manitoba with 6.23 per cent of the total motor vehicles, 5.4 per cent of the gasoline consumption and 5.9 per cent of the gas tax revenue.

Prince Edward Island .63 per cent of the total motor vehicles, .45 per cent of the total net gasoline consumption and .60 per cent of the gas tax revenue.

New Brunswick with 2.57 per cent of the total motor vehicles, 2.1 per cent of the total net gasoline consumption and 2.9 per cent of the gas tax revenue.

Prince Edward Island .63 per cent of the total motor vehicles, .45 per cent of the total net gasoline consumption and .60 per cent of the gas tax revenue.

### BUY BY GRADE

The intensive domestic shopping which signalizes the initial stages of the close of another year brings into sharp relief the difference between the old and the new. In the good old times, shopping for the family in busy seasons took its physical and mental toll from the distracted housewife; nowadays, it is a pleasant adventure. The reasons are that there is now no season in foods, as a result of the art of canning, and today all the best foods are sold by grade under guarantee, as a consequence of the beneficial grading policies of the Dominion Department of Agriculture. Eggs, butter, poultry, honey, beef, maple sugar and syrup, fruits and vegetables are sold by grade. The grades of quality are plainly marked and in order to stimulate the correct method of shopping—buying by grade—the Dominion Department of Agriculture has issued a folder, small enough to go in a lady's purse or a man's pocket, entitled "Consumer's Guide on How to Buy Grade Foods." Grading takes the worry out of shopping.

### HOBNOBBING WITH THE 400

"For many years," said the speaker, "I have wished that I might be one of the 400. At last my dream came true. A month ago we moved to Podunkville. The population is 400."

Many people for various reasons have wished that they might mingle with educated, cultured, traveled, interesting people. If you have ever entertained such a desire may we suggest that you can have a lot of fun doing almost that right in the town where you are.

In practically every community in America large enough to support a newspaper there is a place where you may meet the best people. At this place you not only become acquainted with them but you may even come to understand them better than their nearest relative ever did. Of course that place is the public library.

Here are biographers waiting to present to you the pure souls of all ages.

"The lives of great men all remind us."

We can make our lives sublime."

You may meet discoverers, poets, scientists, statesmen, engineers, judges, musicians, artists sculptors, — in fact men of nearly all trades and professions.

Their introducers or biographers will tell you things that will reveal their inner longings, their victories, their defeats, their joys and their sorrows.

In many cases you may examine their thoughts as they have set them down with great care for you to peruse.

Go down to your meeting place here in Raymond and sit awhile with Mark Twain and let him delight you with his inimitable humor.

Or chat awhile with great philosophers who have truly lived.

Or go over again the life of the one who spent so much of his time in "doing good."

As you mingle with the great and the real 400 leaders of society, stop a moment and realize that all they enjoyed and suffered and wrought is your heritage as truly as the

## WEEKLY LETTER

ILLUSTRATION STATIONS  
IN SOUTHERN ALBERTA

Illustration Stations have been established in every province of the Dominion with the idea of carrying the work of the experimental farms to the farmer and to supplement this work with experiments and demonstrations which apply particularly to each locality.

In Southern Alberta Stations are located at Pincher Creek, Glenwoodville, Milk River, Sunnyside, Youngstown, Castor, Stettler and Chedderville. Note the location of these Stations on a map and it will be seen that they cover a wide range of soil and climatic conditions as well as several distinct types of farming. There are ten stations in the open plains region on soils varying from a light sandy loam to a heavy clay loam, where wheat is the principal crop grown. Other Stations are located in the foothills, the park belt and the wooded areas where mixed farming assumes more importance. On the two irrigated Stations alfalfa is the principal forage crop for dairy cows and other livestock while sugar beets are an important cash crop.

In establishing Stations a representative farmer of the district is chosen to carry on work under the Division of Illustration Stations. The Stations named above are under the immediate direction of the Experimental Station, Lethbridge, and while the responsibility of supervision lies with the Superintendent and the local Supervisor, much of the success of the Station rests with the Operator who derives most of his satisfaction from the service he renders in improving the agriculture of his district.

Some of the major phases of

activity in southern Alberta are:

1. To demonstrate the control of soil drifting.
2. To encourage the growing of crops from pure seed.
3. To determine suitable forage crops.
4. To study the value of fertilizer.
5. To obtain yields and costs of production of crops, particularly wheat.
6. To demonstrate the value of permanent pastures.
7. Livestock improvement.
8. Meteorological records.
9. Field Days.

Considerable attention is given to demonstrate how life on the farm can be made more pleasant—to make the farm a home in the best sense of the word. The Station Operator is encouraged to grow a vegetable garden, bush and tree fruits, a lawn and flowers. Shelter belts around the farmstead is another phase which is given attention. The Operator keeps enough milk cows and poultry to supply at least the needs of his family.

During the past year the work of Illustration Stations has been extended to demonstrate the control of soil drifting on large scale. Eight of the Stations mentioned are carrying on this work under the Prairie Farm Rehabilitation Act and to distinguish them from the regular Illustration Stations, they are called District Experiment Sub-Stations.

Mrs. A. E. Hancock is home from the hospital after her appendicitis operation, and is feeling fine.

Great men are always willing to listen—even to things they already know. That's partly how they became great—getting many slightly different slants on very old problems.

## INDOOR BEAUTY

How many beauty problems arise with sharp changes in the weather. Especially true is this in the winter, when we are indoors so much more, and steam heat does its drying work to the skin. Also, when the cold days approach, the social season swings upward until, by the middle of the winter, it is at its height, and we are beginning to feel the effect of too many tea parties, bridges and dances.

Even though you know the summer is ahead of you, with its long, happy, restful days in the open, you must not altogether overlook this need of the body for sunshine, rest and exercise during the winter season.

You must, if you want to be well and look your best, try every day to take at least a two-mile walk. Go for a walk in the interval between the finishing up of the morning house routine and making of lunch. Breathe deeply and enjoy the sun, which goes down so early in the afternoon these days. Can you not play badminton once or twice a week. Most churches or local societies have a badminton court for their members now, and games have such a way of refreshing the spirit.

But rest is very important too if you wish to remain young. Don't use up all your energy and then wonder why you are not looking fresh and blooming. All beauty aids are not in bottles and jars.

However, that pinched look that comes into the face from lack of sleep, can soon be erased with the help of a little youthifying tissue cream and a skin tonic. And don't forget an occasional herbal masque to rejuvenate your skin.

I do not know of any more excellent beauty builder than 1 day in bed every few weeks. Just refuse to answer the telephone or see your friends. Ask the children to wait on you, they will enjoy the responsibility and they will benefit in the end from your rejuvenation.

Next Variety for Youth.

For expert advice on your beauty problems, write Woman's Interest Syndicate, 126 Bloor St. W. Toronto, Ontario.

## NEWS NOTES

J. W. Newby, Auctioneer of Lethbridge was a Raymond visitor Thursday.

Contractor McNally of Lethbridge, was in town Thursday talking with Town officials regarding a contract on the dam site south of town.

Gordon Finlay of Northwood, Ont., won the championship in Say beans at the Chicago Exposition, and as this is his third win, he is barred from further competition in this class at the Chicago Show.

Everyone is enjoying the beautiful weather that has prevailed for nearly a month past. Sunny Southern Alberta is certainly living up to its name now, when it is so mild in December that some nights no frost falls despite the fact that no breeze is blowing. Why go to California.

### WOMEN'S WHIMS

(By MARYELLEN)

Aren't we here for only a few years, and are they full of plenty of trouble; so we think.

Are we not like plants that today put forth tender leaves tomorrow blossom, and while we are watching for the first frost comes, and everything we touch falls butter side down, and no matter how hard the blow has been, our friends slap us on the back, and laugh at us and tell us that we must take it on the chin and pretend we like it. Can't these follies be aggravating?

We should laugh with them but we didn't feel like it, and missed that chance.

Do you ever dramatize yourself, and pretend what a wonder you are? Have you in your own mind, rehearsed golden words which would make your friend sit up and take notice and go to some meeting, and there hear just what you had in mind and remark to your friend, "That is what I have always said."

Well, that was another chance to laugh, but didn't.

Do we not think that our opinions and solutions of problems

are the last word? And when we explain them to others, and they say, "No, I do not agree with you," do you feel sorry for them? Have we ever seen a person in a difficult situation, that we do not think we could have improved on his conduct, even without knowing all the details, leading up to his decision, had you or I been in his place? It is rare that we cannot find something to criticize in others. Yet, with all our famed wisdom and our splendid ability to meet situations, we have only at rare intervals enough common sense to hold our selves up to ridicule or criticism. I need only to hold up the mental mirror and look myself squarely in the face to realize that I am as comical a creature as ever posed for himself or others.

Wouldn't life be the funniest thing in the world, a regular riot if you and I could just cultivate the ability to laugh at the biggest loser, the silliest pretender we know, "US."

Wouldn't we be heaps happier if we could only laugh when our little apple-carts upset and wait awhile to see the funny side of the incident.

I am going to laugh at myself more. I wish you would laugh with me, because when I am not laughing I am going to laugh at the next funniest person I know, and that is you.

Can your friends say of you, "You give to the 'full' when giving." "Half measure" is not your way. When at work, you work to the limit, and play for each hour of the day. 'Tis the same when off work, on pleasure you're bent. You take the full measure 'half measure's not meant.

These lines were written several years ago by Ashmore H. Bird, a purser on one of the boats on the Triangle trip at the Pacific Coast. This was a very happy disposition, and many were his accomplishments. He had a happy faculty of making everyone on board with whom he came in contact feel at home; acting often in the capacity of host. He wrote many verses about interesting people he chanced to meet, and could tell stories of encounters he had had while travelling in the discharge of his duties. Most of his subjects are of homey things, and the simplicity of the title of the book "Written Thoughts" conveys to those who have the pleasure of knowing him, a world of appreciation of A. H. Bird.

By reviving a hobby of their youth some people have regained some of youth's viewpoints.

A great problem met, whether mastered or not puts smaller ones in their places as inconsequential.

### WANT ADS.

## Brewerton's Limited

Finishing touches are being put to the new Texaco station now, and it will be ready for opening very shortly.

Shifts at the Sugar Factory changed last Sunday.

During the good weather brick work has been going ahead on the addition to Joe Strong's home, and the walls are up to the square and one gable up. Joe will have a real "comfy" home when it is finished.

Even the management had to admit Thursday night that they didn't expect such a crowd. Neither did any of the rest of us.

## PARENTS

Give your Child  
this Advantage

SOMETHING every parent of a growing child should know—a survey of 10,000 school children has proved that a typewriter, used for homework, improves general school work enormously. Spelling, reading and composition are especially bettered. Why deny your child this help, when it costs so little?

Not only your children, but you, and all your family, will enjoy using the Remington Portable Typewriter at home.
